Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

1. these differences are only found in the nonfunctional descriptive material and are not functionally involved in the steps recited. The steps would be performed regardless of the noises or pictures presented. Thus, this descriptive material will not distinguish the claimed invention from the prior art in terms of patentability, see *in re Gulack*, 703 F.2d 1381, 1385, 217 USPQ 401, 44(Fed. Cir. 1983); *In re Lowry*, 32 F.3d 1579, 32 USPQ 2d 1031(Fed. Cir. 1994).

DETAILED ACTION

This action is in response to papers filed on August 29, 2007.

Claims 2, 4, 21-24 and 28-30 are amended.

Claims 2, 4, 21-24 and 28-30 are pending.

Claims 2, 4, 21-24 and 28-30 are rejected.

Claim Rejections - 35 USC § 102

(e) the invention was described in (1) an application for patent, published under section 122(b), by another filed in the United States before the invention by the applicant for patent or (2) a patent granted on an application for patent by another filed in the United States before the invention by the applicant for patent, except that an international application filed under the treaty defined in section 351(a) shall have the effects for purposes of this subsection of an application filed in the United States only if the international application designated the United States and was published under Article 21(2) of such treaty in the English language.

1. Claims 2, 4, 21-24 and 28-30 are rejected under 35 U.S.C. 102(e) as being anticipated by US Patent Publication 2005/0197892 Bilibin et al. Apparatus, System and Method for Zone level rating for each of Multiple Carriers.

2. As to claims 2, 4, 21-23 and 28-30 Bilibin teaches a system and method of:

A. associating respective users with user identifiers (**¶ 162 registering and creating user ID and passwords**)

1. B. associating with the respective users mail pieces directed to or sent by the respective users;(**Fig. 56-57**)

C. receiving mail piece delivery status information from one or more mail piece delivery companies and linking the mail piece delivery status information relating to the respective mail pieces to the respective user identifiers that are associated with the users to which the mail pieces are associated, (**Fig. 50 Ref. 441-442**)

D. receiving information concerning the contents of the respective mail pieces from the senders of the respective mail pieces and linking to the delivery status information an attachment consisting of the information concerning the contents of the respective mail pieces; and **(Fig. 51-54)**. Although Bilibin fails to teach the specific type of format of information that is sent to the (i.e. Text information, graphics, audio etc) these differences are only found in the nonfunctional descriptive material and are not functionally involved in the steps recited. The steps would be performed regardless of the noises or pictures presented. Thus, this descriptive material will not distinguish the claimed invention from the prior art in terms of patentability, see in re Gulack, 703 F.2d 1381, 1385, 217 USPQ 401, 44(Fed. Cir. 1983); In re Lowry, 32 F.3d 1579, 32 USPQ 2d 1031(Fed. Cir. 1994).

E. providing a graphical interface connected to notify the respective users of the delivery status of the respective mail pieces, the interface being configured to:**(Pg. 8 ¶ 147) Fig 54 Ref. 1258)**

- i. provide the mail piece delivery status information that is linked to the user identifiers that are associated with the respective users, and
- ii. provide to the respective users the associated information concerning the contents of the respective mail pieces. **(Fig. 71-72)**

3. As to claim 24 Bilibin teaches the one or more messages being "provided" by the sender associated with the mail piece.(Fig. 51).

Response to Arguments

4. Applicant's arguments with respect to claims 2, 4, 21-24 and 28-30 have been considered but are moot in view of the new ground(s) of rejection.

Conclusion

5. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the mailing date of this final action.
